International feel to school's timetable

THIS week pupils and staff from Crickhowell CP School and Llanbedr Church in Wales School welcomed staff from schools in Belgium, Estonia, Germany, Iceland, Spain and Turkey.

The visit formed part of a two year British Council funded 'Comenius' Project. The focus of the project is on stories, music, dance, art and drama in each country and

the cultural tradition within.

Head Teacher at Crickhowell, Jon Wright said "This is a great opportunity for staff and children to learn about the education systems and culture in each of our partner countries and for teachers to share ideas and good practice. The links build upon those that we already have with schools in India."
